OBJECTIVE

Computer Science Engineering student specializing in Cybersecurity with hands-on experience in frontend development and cloud deployment through internship projects. Familiar with Next.js, TypeScript, and AWS, and eager to learn and contribute.

Professional Experience

DataDives India Pvt Ltd, UI Developer Intern
• Developed frontend interfaces for Dashboard, Alerts, Analytics, Datasets, and Audit logs modules using Next.js, TypeScript, and CSS.
• Converted Figma designs into reusable UI components and integrated backend APIs.
• Implemented authentication, data tables, filters, and dashboard functionalities.
• Assisted in AWS deployment and frontend environment configuration.

02/2026 – Present
Remote(WFH)

SKILLS

Technical Skills
• Programming: Python, SQL.
• Web Development: HTML, CSS, Bootstrap, TypeScript, Next.js.
• Tools & Technologies: AWS, Git/GitHub, Linux, Figma, Wireshark.

Soft Skills
• Problem-solving & Analytical Thinking
• Team Collaboration
• Communication Skills
• Adaptability & Time Management

PROJECTS

Compliance Management Dashboard
• Developed a compliance management platform using Next.js, TypeScript, and Tailwind CSS.
• Built landing, login, dashboard, audit, DSR, and admin management modules with role-based access control.
• Integrated backend APIs for compliance workflows and document management.
• Developed responsive UI for mobile, tablet, and desktop, and deployed the frontend on AWS.

Healthcare Intelligence Dashboard (IHIL)
• Developed healthcare intelligence modules using Next.js, TypeScript, and Tailwind CSS.
• Built interfaces for Dashboard, Alerts, Analytics, Datasets, Search, and Pipeline Monitoring.
• Converted Figma designs into reusable UI components and implemented responsive layouts.
• Developed responsive interfaces for mobile, tablet, and desktop, and assisted in AWS deployment.

Autonomous Monitoring System to detect cyber threats
• Developed a system to detect cyber threats including brute force and DDoS attacks using SIEM concepts
• Analyzed system logs and network activity to identify vulnerabilities and suspicious behavior
• Enhanced system security by automating threat detection processes

EDUCATION

GITAM University, B.Tech, Computer Science and Engineering (Cybersecurity)
CGPA: 8.22

2026
Bengaluru-Rural

CERTIFICATES

• Build Your Own Responsive Website
• Programming Foundations with Python

• JavaScript Essentials
• Build Your own Dynamic Web Application

• Introduction To Databases
• Build Your own static website Application
